Subject: 80K Gallon Sewage Release from Puget Sound Naval Shipyard

Good morning folks.

Justin Hubbs from the Puget Sound Naval Shipyard reported their base had an 80,000 gallon sewage release into Sinclair Inlet. This event took place over two weeks, from 7/30/18 until 1500 hours yesterday (8/13/18). The cause of the release was due to a blocked pipe which diverted sewage flow through a pipe that inadvertently connected the sewage system to the storm drain system. The blockage was unplugged yesterday, and today they will work on capping the connecting pipe.

Justin Hubbs' contact number is: (b) (6)

WA State Incident # is: 18-3073.

Please acknowledge receipt of this message.
Thank you.
